

English

This half term we will be looking at the story of 'Aladdin'. Children will have the opportunity to write a setting description, a diary entry, a persuasive letter, a persuasive poster and an additional chapter to the story.

Please continue to practise weekly spellings and read regularly with your child at home.

PE

Children will develop their team building skills.

They will learn how to balance, jump and run with co-ordination whilst supporting and encouraging each other.

Science

This half term we will be focussing on offspring. Children will look at how the young of animals and humans grow into adults and the different stages of growth. We will also discuss metamorphosis and look at animals such as frogs that go through huge growth changes.

Design Technology

The children will be exploring mechanisms like levers and sliders. They will make a scene from Aladdin that has moving parts.

They will also design their own biscuits before using a range of cookery techniques to make their biscuits and evaluate the finished product.

Year 2

Summer 1

Maths

The children will learn about multiplication and division. They will calculate mathematical statements for multiplication and division using the x and ÷ symbols. Children will also develop their problem solving skills by answering 2 step questions involving multiplication and division.

PSHE

We will be discussing the special relationships we have with our families and friends

History

The children will be learning about the lives of two famous nurses Florence Nightingale and Edith Cavell and comparing the impact they had on modern health care.

The children will also be learning about today's NHS.

Art

In Art we will be developing our shading and toning, printing and printing skills. We will also be creating pop art inspired work.
