

Personal, Social and Emotional Development

As we settle into Nursery we will be making new friends and learning how to work together as a team. We will be learning how to choose our own activities and resources to achieve a goal. We will be learning and following our routines and learning how to participate as part of a class. We will talk about our feelings and learn how to understand other people's feelings.

Independence

We will be practicing to be a little more independent. This half term we will be practicing putting on and taking off our own coats, waterproofs and wellies. We will also go to the toilet by ourselves and wash our hands afterwards.

Nursery Learning

Autumn Term 1

All About Me

Number

We will be counting up to five objects, practising 1 to 1 correspondence. We will be learning and ordering days of the week and exploring comparative language such as more/less, longer/shorter.

Physical Development

We will be doing lots of big movement together to help develop the muscles in our arms and our core strength.

We will also be learning to move safely in a space and how to stop safely. We will also learn how to play cooperatively with others and how to use equipment safely.

Literacy

We will be learning to recognise our name on our coat pegs, our self-registration cards and in our cardigans and jumpers. We will be sharing stories about starting school and making friends.

Seesaw

We will be sharing our learning activities with you through Seesaw. Also, please send us photographs of fun things you have been doing at home.
